

Har du problem med luftvägssymtom, kräkning, diarré eller utslag kombinerat med feber?

Om du misstänker att du har en pågående infektion som du tror kan vara smittsam, var vänlig och meddela personal snarast.

---

Do you have problems with respiratory symptoms, vomiting, diarrhea or rashes combined with fever?

If you suspect that you have an ongoing infection that you think may be contagious, please notify staff as soon as possible.
